

## Hardwood Packet - \$20

(4 each of the following species - 20 seedlings total - No Substitutions)

### Black Cherry (*Prunus serotina*)

Commercially important tree growing to 60+ ft. at maturity; commonly used for lumber, veneer, and furniture. Leaves are dark green in summer and yellowish in fall. The small black fruit provides food for a variety of birds and mammals. Tolerates a wide variety of growing conditions.

### Black Walnut (*Juglans nigra*)

This large nut tree, reaching up to 75 ft. at maturity, is valued for timber, veneer and furniture. It has dark green compound leaves and produces delicious nuts, utilized by wildlife. Grows well in most locations, but prefers fertile, deep soils.

### Northern Red Oak (*Quercus rubra*)

Tall, relatively fast growing tree, reaching 80+ ft. at maturity. Leaves are shiny green in summer and bright red in fall. An excellent tree for street or yard. Prefers full sun and acidic soil. It has a commercial value for furniture and lumber. Plant 15-39 ft. apart.

### White Oak (*Quercus alba*)

A large, broadleaf tree growing to 100+ ft. This species is shade tolerant, found on a variety of sites and grows best in deep, sandy loam soil on south and west-facing slopes. A great species for wildlife.

### Tulip (Yellow) Poplar (*Liriodendron tulipifera*)

A fast-growing tree, at maturity this species can reach a height of 80 ft. with a spread of 40 ft. Flowering in late May/early June, it has the largest solitary flower of any native tree in Ohio. It is characterized by six petals that are yellow-green on the outside, and orange-yellow on the inside. It grows in full sun to partial sun and prefers moist but well-drained, slightly acidic, deep, rich soil but can adapt to other soil conditions. Early/mid season bloom.

## Fruits and Mushrooms

**Dwarf Grimes Golden Apple** (2 trees) Grimes Golden apple has a unique history and a distinct depth of flavor - sweet with a little bit of spice. It is great for eating fresh, canning, freezing and drying. Also great for making applesauce and apple butter. They fruit around September. Dwarf Grimes Golden apple trees are considered self pollinating. These dwarf varieties will ultimately have a height and spread of about 10 ft. They grow best in well-drained, loamy soils and full sun. Soil pH in the 6.0 to 7.0 range is ideal for apple trees. **2/\$33**

**Shiitake Mushroom** (1 kit) Delicious mushrooms that have brown, slightly convex caps that range from about 2-4 inches in diameter. Kit contains 200 inoculated shiitake dowel plugs, 1/4lb. bees wax, wax dauber, 5 metal tags for labeling and an easy to follow growers guide. Each kit will plug approximately 10 logs 3 inches in diameter and 40 inches long. Logs not included. **\$28**

## Weed Wand Magic - \$28

No spray, no drift, no waste! Ideal for quick, easy and targeted spot application of herbicide directly on weeds or stumps. Lightweight design prevents the need to bend over - simply push down on the tube to apply the desired amount of herbicide. Each wand comes with a three pack of replacement tips.

## How to Order

Complete order form found in brochure, on website ([www.pickawayswcd.org](http://www.pickawayswcd.org)), in January newsletter, or in office.

We accept Cash or Check made payable to *Pickaway SWCD*. Please include your email on the order form so we can send you order and pick up confirmations. Hard copies of all receipts will be given at pick up.

Mail or drop off order form with payment to:

**Pickaway SWCD**  
**110 Island Road, Suite D**  
**Circleville, Ohio 43113**

Pickaway SWCD Office Hours:  
Monday-Friday 8:00-4:30

Orders will be accepted through  
**February 15, 2023**

### **Tentative Pick-Up Date & Location**

March 22, 2024 from 9:00 AM - 6:00 PM  
At the garage in lower parking lot of Service Center, 160 Island Road

*An email will be sent to you to confirm pickup date, location and times.*

If you have any questions, please call  
**740-477-1693**

*Please note that Pickaway SWCD and several other SWCDs order all of our trees through Athens SWCD. Athens SWCD works with various greenhouses on varieties, and they are the distributor. The Athens Soil and Water Conservation District reserves the right to substitute species in the Specialty Tree Packets, Erosion Control Seed Mix and Wildlife Food Plot Seed Mix based upon availability.*

## Deciduous Trees

**Black Cherry** Commercially important tree growing to 60+ ft. at maturity; commonly used for lumber, veneer and furniture. Leaves are dark green in summer and yellowish in fall. Small black fruits provide food for birds and mammals. Tolerates a wide variety of growing conditions. *Black Cherry's wilted Green leaves can be poisonous to sheep, goats, cattle and horses.* **25/\$20**

**Black Walnut** This large nut tree, reaching up to 75 ft. at maturity, is valued for timber, veneer and furniture. It has dark green compound leaves and produces delicious nuts, utilized by wildlife. Grows well in most locations, but prefers fertile, deep soils. **25/\$20**

**Northern Red Oak** Tall, relatively fast growing tree, reaching 80+ ft. at maturity. Leaves are shiny green in summer and bright red in fall. An excellent tree for street or yard. Prefers full sun and acidic soil. It has a commercial value for furniture and lumber. Plant 15-39 ft. apart. **25/\$20**

**Sugar Maple** This large shade tree can reach heights over 100 ft. It is the cornerstone of the maple syrup industry. The medium green leaves can turn brilliant yellow, orange or red in the fall. Prefers partial to full sun and well-drained soil. Excellent shade tree. **25/\$30**

**White Oak** A large, broadleaf tree growing to 100+ ft. This species is shade tolerant, found on a variety of sites and grows best in deep, sandy loam soil on south and west-facing slopes. A great species for wildlife. **25/\$20**

### SEEDLING SIZE:

**TREE AND SHRUB SEEDLINGS SHOULD BE: BETWEEN 6 AND 18 INCHES TALL, DEPENDING ON THE SPECIES. SEEDLINGS SHOULD BE PLANTED WITHIN 5 DAYS AFTER PICK-UP AND THEN WATERED REGULARLY.**

## Groundcover

**Wild Ginger** (*Asarum canadensis*) Native spring wildflower grown in woodland gardens, native plant gardens, or used as edging in landscapes. Easily grown in a variety of soil types in part shade to full shade. Spreads slowly by rhizomes. Height is 4-8" at maturity. Plant 8-12" apart. 25 bulbs per packet - **\$25**

**Partridge Berry** (*Mitchella reptans*) A mat-forming, evergreen groundcover that displays interesting foliage, flowers and fruit. Tolerates heavy shade and dry conditions. Height is 2" at maturity. Plant 8-12" apart. 25 bulbs per packet - **\$25**

**Wild Geranium** (*Geranium maculatum*) Attracts large numbers of native bees! Noted as a semi-evergreen, the plant grows 1-2 ft. high and produces flowers 1-1.5" across. Does well under a variety of growing conditions and prefers part to full shade. Plant 8-12" apart. 25 bulbs per packet - **\$25**

## Plantskydd (Spray & Powder)

100% organic, safe for use in protecting flowers, ornamentals, seedlings, shrubs, and trees, as well as fruit, vegetables, and other food crops against browse damage from deer and rabbits. Won't harm the environment or pets. It is non-toxic, biodegradable, and also acts as a fertilizer. Available in 1 quart ready to spray bottle or 2.2 lb. soluble powder concentrate (makes 10 quarts of liquid for spraying). **Spray \$22 and Powder \$49**

## Conifer Trees

**Eastern Redcedar** This medium growing species makes an excellent windbreak while its aromatic heartwood is prized for making chests, wood lining, shavings, small carvings, pencils, and non-rotting fence posts. Reaching a height of 30 ft. and spread of 15 ft., it tolerates about any type of soil and does well in full to partial sun conditions. Should not be planted near apple trees due to cedar-apple rust. **25/\$20**

**Eastern White Pine** An outstanding timber pine due to its large size (80+ ft.) and fast growing ability. It has long, soft, light green needles and grows well in many soil types. Often used for windbreaks, wildlife habitat (provides excellent nesting cover), lumber and Christmas trees. Prefers full sun, but can tolerate some shade. Not salt tolerant. **25/\$20**

**Norway Spruce** (*Picea abies*) One of the fastest growing spruces, reaching 100 ft. at maturity. An extremely attractive evergreen with strong, distinctive, sweeping branches and shiny green 1/2" to 1" long, flat needles. Grows well on most sites and is used for ornamentals, windbreaks and Christmas trees. **25/\$20**

**Virginia Pine** A small to medium sized tree reaching up to 70 ft. in height. It grows best in sites with full sun, well-drained soil, and sandy acidic loam. It has a slow growth rate and is moderately pollution tolerant for a pine. It will grow in poor, dry soils, including clay soils. The seeds are a food source for many birds and it is resistant to damage by deer. **25/\$20**

**Bald Cypress** Large, slow-growing, long-lived, deciduous conifer. Frequently reaches 100-120 ft. in height and 3-6 ft. in diameter. The leaves are alternate, linear and flat with blades generally spreading around the twig. Prefers very wet soils consisting of muck, clay or fine sand where moisture is abundant and fairly permanent. Excellent for erosion control, timber, wildlife, and site rehabilitation. **25/\$20**

## Seed Mixes

### FOR MORE INFORMATION ON THE INDIVIDUAL SEED MIXES

**VISIT OUR WEBSITE AT [www.pickawayswcd.org](http://www.pickawayswcd.org).**

**Erosion Control Seed Mix** A blend of Birdsfoot Trefoil, Timothy, Tall Fescue, Annual Ryegrass, Alsike Clover and Red Top. Excellent substitute for crownvetch. For severe erosion control measures. Covers 200 sq. ft. **2 lb. bag - \$TBD**

**Showy Northeast Native Wildflower & Grass Seed Mix** A mix of native wildflowers and prairie grasses that will provide a wonderful display of color from spring through summer. This full sun/part shade mixture contains drought resistant species that attain an average height of 2-3 ft. Excellent for native meadows and wildflower patches. Covers 200 sq. ft. **1 oz. packet - \$TBD**

**Whitetail 365 Food Plot Seed Mix** This "throw & go" mix can be planted anytime from early spring through late fall. The combination of oats, rye, and 2 varieties of peas ensures that something is always growing and providing forage for deer year-round. Covers 1/2 acre. **25 lb. bag - \$58**

## Tree Marking Flags

30 inch high metal stakes with a 4x5 inch pink or orange flag. Perfect for marking those newly planted trees, shrubs, and groundcover. \$0.12 each or 100 for \$12

## Wildlife Packet - \$25

(4 each of the following species - 24 seedlings total - No Substitutions)

### **American Elderberry** (*Sambucus canadensis*)

This deciduous shrub reaches a height and spread of 5-12 ft. and has white blooms from June to July. Grows in medium to wet, well-drained soils in full sun to part shade. Tolerates a wide range of soils, but prefers moist, humusy ones. Spreads by root suckers to form colonies. Fruits attractive to wildlife and can be used to make jams, jellies, pie fillings, and wine. Attracts birds and butterflies.

### **American Plum** (*Prunus americana*)

Its white, pungently sweet blossoms emerge in early spring before the foliage breaks bud. It is very adaptable to a wide variety of environmental conditions and needs full sun. Can reach a mature height of 20 ft. and mature spread of 25 ft.

### **Shagbark Hickory** (*Carya ovata*)

This medium growing tree can reach mature heights of 100 ft. and mature spreads of 40 ft. Frequently found in dry uplands or moist valleys. Its cut timber is prized for making tool handles, athletic equipment, furniture, construction timbers, and firewood. It is also sought after for smoking meats, especially pork. It produces sweet and large nuts relished by squirrels and other wildlife.

### **Hazelnut** (*Corylus americana*)

This nut-producing shrub grows to a height of 15-18 ft. and a spread of 10-12 ft. with a medium to fast growth rate. It takes on a multi-stemmed form with an open, wide-spreading base. Full sun and partial shade are preferable - a minimum of 4 hours of direct, unfiltered sunlight each day. The hazelnut grows in acidic, alkaline, loamy, moist, rich, sandy, well drained, and clay soils and is drought-tolerant. Should be planted in multiples (2 or 3) to ensure cross-pollination. Nuts eaten by squirrels, deer, turkey, woodpeckers, pheasants, grouse, quail, & jays.

### **Persimmon** (*Diospyros virginiana*)

Adaptable to a variety of soil, moisture, and polluted conditions. Prefers moist, well-drained, average soils of various pH's, but easily adapts to poor, rocky, clay, sandy, or even organic soils of dry or moist constitution. Will not tolerate wet sites and needs full to partial sun. Slow to medium growing tree, can reach a height of 50 ft. and spread of 30 ft. Primarily a dioecious species. This tree produces a yellow flower in late spring and early summer. Persimmons are often pured or baked into goods, but they're also delicious raw.

### **Chinkapin Oak** (*Quercus muehlenbergii*)

Medium growing deciduous tree can reach a mature height of 40-60 ft & a spread of 50-70 ft. Prefers full sun and adapts to a wide range of soil conditions. Tolerant of alkaline soils & needs a pH >7. Acorns 1/2-1" in size produced annually & attract birds & mammals. Relatively pest free including resistance to oak wilt.

## Wildlife Boxes - \$30

### **Bat House**

Bats play an essential role in keeping populations of night-flying insects in balance. One bat can catch hundreds of insects per hour! They are primary predators of beetles, moths, leafhoppers, mosquitoes and other insects. Installing this cedar bat house on your property will provide roosting locations for these nocturnal mammals.

### **Eastern Bluebird Box**

Landlords wanted! Attract bluebirds to your property! Bluebirds readily accept nesting boxes to raise their young. Ideal bluebird habitat is mix of scattered trees and open grasslands, including short, mowed or grazed grass. These cedar nest boxes should be placed at least 300 ft. apart.
