

COOPERATIVE CONSERVATION AGREEMENT
BETWEEN
PICKAWAY SOIL AND WATER CONSERVATION DISTRICT
AND

OWNER: _____

ADDRESS: _____ PHONE: _____

OPERATOR: _____ PHONE: _____

LOCATION OF LAND AREA: _____
(Acres) (Township) (Group)

I am interested in better management of our natural resources, and hereby request assistance from the Pickaway Soil and Water Conservation District to help me plan and establish good natural resource management practices on my land.

I will cooperate with the District in the development of a Resource Management Plan for my land. This plan will make a record of planned land use changes and plans for applying and maintaining conservation practices which are mutually acceptable and agreeable to me and the District.

The District strongly recommends that all conservation practices or projects installed with the technical assistance of the District be maintained throughout the life of the project.

IT IS MUTUALLY AGREED THAT:

1. This application and agreement authorizes the Soil and Water Conservation District Board of Supervisors, or its representatives, to make surveys necessary for the planning, installation and inspection of conservation practices on my land.
2. Neither the District nor its representatives, nor the landowner or operator, will be liable for any damage to the other's property in carrying out the provisions of this agreement, unless such damage is caused by negligence or misconduct.
3. Services provided by the Natural Resources Conservation Service and other governmental agencies through this Soil and Water Conservation District are provided without cost to me as a cooperator.
4. This Cooperative Conservation Agreement shall remain effective until terminated by either the landowner, the Soil and Water Conservation District, or by transfer of ownership of the land.

I am interested in assistance on the following conservation problems: _____

Signature of Owner	Date
Signature of Operator	Date

We, the Board of Supervisors of the Pickaway Soil and Water Conservation District, will furnish technical assistance in planning, establishing and maintaining the conservation practices needed for your land, according to the policies in existence and the resources available at the time work is to be done. This service will be provided regardless of race, color, religion, sex, or national origin.
